The F1400 is the ultimate micro skiff. It's 14 feet long with 66 inches of beam. It's very economical to operate, taking advantage of its light weight and lower HP motors. With a 10 degree deadrise and a v hull, which carries through to the transom, it can handle the chop as well as get you into the skinny water. You can leave your dock to fish your local waters or bring it aboard the mother ship as a tender. It fits easily in your garage or on your smaller davits. It's a great boat to get in and out of the water with minimal effort, and is so light, it can be towed behind a smaller vehicle. It's a great boat to chase your favorite fish or play on the sand bar. It's 14 feet of pure fun. Take a bite out of a Piranha today!

Optional Features:

Poling platform
Trolling Motor
Trim Tabs
Vertical/Horizontal rod holders
LED lighting
Push pole holders
Digital gauges
Electronics
